NS CYBER HUB

Learn Hacking With Mobile,TERMUX FULL COURSE

🧠 **WELCOME BRO** 👋

Agar tum yaha tak aa gaye ho…
👉 Matlab tum normal user nahi ho 😎

Tumne start kar diya hai:
🔥 System samajhna
🔥 Command line control
🔥 Real hacker foundation

🟢 **DAY 1 – ENTRY INTO TERMUX WORLD**
📱 **Termux kya hai?**

👉 Termux =Ek app jisme tum coding, tools aur hacking basics seekh sakte ho

⚡ **FIRST COMMAND (INSTALL TOOL)**
🛠️ Install cmatrix
pkg install cmatrix

👉 Yeh kya karta hai?
➡️ Tool install karta hai

💬 Simple samjho:
“Jaise Play Store se app install karte ho… waise hi yeh terminal se karta hai”

😈 **Run cmatrix**
cmatrix

👉 Screen pe hacker-style green rain aayega 🌧️

💬 Feeling:
“Ab tum normal user nahi… hacker zone me entry le chuke ho 🔥”

🟡 **DAY 2 – CONTROL YOUR FILE WORLD** 🏠

👉 **Termux = ghar**
👉 **Folder = room**
👉 **File = saman**

📍 **Where am I?**
pwd

👉 Batata hai:
“Main abhi kis room me hoon?”

👀 **See what's inside**
ls

👉 Room ke andar kya hai — dikha deta hai

🚪 **Enter a room**
cd foldername

👉 Ek room se dusre room me jaana

🏗️ **Create new room**
mkdir myfolder

👉 Naya folder = naya room

📄 **Create file**
touch file.txt
👉 Empty file bana deta hai

✏️ **Edit file**
nano file.txt

👉 File open hoti hai → tum likh sakte ho

📋 **Copy file**
cp file.txt newlocation

👉 Ek file ki duplicate copy

🚚 **Move / Rename**
mv file.txt newloication/newname.txt

👉 Rename ya move

🗑️ **Delete**
rm -r foldername

👉 Folder + andar ka sab delete 💀

🧹 **Clear screen**
clear

👉 Screen clean — fresh start

🔴 DAY 3 – OWNER MODE 😈 (ADVANCED CONTROL)

👉 **Ab tum sirf user nahi…**
👉 **Tum OWNER ho**

👀 **Hidden cheezein dekho**
ls -a

👉 Hidden files bhi show karta hai

💬 “Secret rooms reveal 😳”

📊 Detailed info
ls -l

👉 File ka:

size
date
permission

💬 “X-ray vision 🔥”

💥 All power together
ls -la

👉 Hidden + details = FULL CONTROL

🌳 Full house map
tree

👉 Pure folder structure dikhta hai

💬 “Google Maps of your system 😎”

🧠 Command history
history

👉 Tumne kya-kya commands run kiye

🏗️ Nested folders (pro move)
mkdir -p a/b/c

👉 Ek hi command me 3 folders

❌ Remove empty folder
rmdir foldername

👉 Sirf empty folder delete

📂 Copy full folder
cp -r folder1 folder2

👉 Folder + andar ka sab copy

🚚 **Move folder**
mv folder1 newplace

👉 Folder shift

📁 **Access phone storage**
termux-setup-storage

👉 Phone gallery/files access

🔐 PERMISSIONS – REAL POWER 🔥

Example:

drwxr-xr-x

🧩 Break it simply:
👉 First letter:
d = folder 📁
- = file 📄
🔐 **Next part:**
rwx | r-x | r-x
👥 **Meaning:**

Part	*Who*
1st	*You (Owner 😎)*
2nd	*Group*
3rd	*Others 🌍*

🔑 **Letters:**
r = read 👀
w = write ✏️
x = execute ⚡

💬 Simple line:

👉 "Kaun dekh sakta hai… kaun edit kar sakta hai… tum decide karte ho 😈"

🔢 OCTAL SYSTEM (EASY MAGIC)

Number	Meaning	Symbol
4	*Read*	*r*
2	*Write*	*w*
1	*Execute*	*x*

🔥 Combine:
7 = 4+2+1 = Full access 🔥

6 = 4+2 = Read+Write, No execute
5 = 4+1 = Read+Execute, No write
⚡ **Example:**
chmod 755 file.txt

👉 Owner = full access
👉 Others = limited

💬 “Password jaisa system hai 🔐”

🎯 FINAL MESSAGE FOR YOU

👉 Agar tum yaha tak samajh gaye ho…

🔥 Tum beginner nahi rahe
🔥 Tum command line control samajh rahe ho
🔥 Tum hacking ki foundation bana rahe ho

😈 MISSION FOR YOU

Try this:

Ek folder banao
Ek file create karo
Permission change karo

💬 **Comment karo:**
👉 ***“OWNER MODE ACTIVATED 🔥”***

🚀 NEXT LEVEL COMING

👉 ***Tools***
👉 ***Automation***
👉 ***Real-world use***

🔥 ***“Ab game serious hone wala hai…”***
